Welcome

Since 1907, the Oklahoma State Fair (OSF) has been one of the most anticipated events in the state by providing an ever-changing kaleidoscope of high quality, family-style entertainment. With a strong dedication to the best State Fair experience possible, the multitude of staff associated with planning and executing the OSF strives to exceed the highest expectations of all Fairgoers, by building strong business relationships with quality Exhibitors. As a contracted Exhibitor, you are now part of that team because we believe you share this same philosophy. We look forward to working with you as we continue our strong heritage of education, entertainment and economic development. **Please note:** Oklahoma State Fair, Inc., shall be known as “OSF” and “event” refers specifically to the 2020 Oklahoma State Fair.

This manual provides Exhibitors with the information necessary to ensure a smooth, positive and successful experience at the OSF. For the purposes of The HANDBOOK, the term “Exhibitor” translates as the equivalent of the term “Licensee,” as referenced throughout the commercial space contract and license agreement. “Exhibitor” is the general term used to identify any Exhibitor, vendor, food concession or pay-to-play attraction contracted to participate at the OSF. The information outlined in the following pages is made a part of each Exhibitor contract by reference. It is the responsibility of each Exhibitor to be familiar with these policies, procedures and rules.

OSF reserves the right to add, delete, interpret or amend rules and regulations contained herein as it deems necessary. Any variances or special permissions granted must be requested each year.

Add-On Services

The **ADD-ON SERVICE ORDER FORM** is available on our website to order services such as water, phone, electric, etc.

1. **A separate form must be used for each individual location.**
2. Service orders, with full payment, are due **no later than August 1**. Orders turned in without money will NOT be processed and late fees will be applied, as indicated.

Advertising/Promotion Limitations & Trademarks

1. Contracted Exhibitors may speak on behalf of their own business, but not on behalf of OSF. For information to come from one reliable source, Exhibitors shall refrain from spreading misinformation by speculating, commenting on or repeating rumors. All media inquiries should be directed to the marketing senior vice president at 405-948-6737.
2. The OSF logo is trademarked. Use of the official logo or any other associated names, artwork or graphics is strictly prohibited without prior written consent from OSF.
3. No person is permitted to distribute advertising matter, handbills, flyers or heralds upon the grounds of State Fair Park without prior written approval from OSF in the form of a contract, and then only from within the contracted space. OSF can demand the removal of any advertising matter it considers objectionable.
4. To protect the value of the OSF sponsorship program, Exhibitors may not advertise any product by brand name, trademark or trade name unless granted prior approval by OSF. Generic names must always be used, when applicable, i.e.: “Donut Burger” is acceptable versus Krispy Kreme Burger. This rule also applies to any signage or banners provided by on-site suppliers promoting specific products. At the time of this printing, Coca-Cola Southwest Beverages is the only recognized sponsor approved for additional advertising/signage/banners beyond menu boards.
5. No Exhibitor shall display any form of political advertising or propaganda or any other material that is not explicitly listed and approved in the Exhibitor’s contract.
6. No Exhibitor, manufacturer, distributor or supplier may place advertising or any other matter on any building, stand or space not directly leased to Exhibitor, nor may any approved material be placed anywhere other than within the approved licensed space in an approved manner – not using the permanent or temporary structures of the facilities of OSF.
7. Only the contracted Exhibitor can advertise and promote within the contracted space. No other secondary entities can advertise within the contracted space without express written consent from OSF management.
8. Nothing shall be sold, given away or be otherwise dispensed by Exhibitors that will, in any way, conflict with the event or OSF marketing efforts.
9. **Items with adhesive surfaces (i.e. stickers) and balloons will not be approved for giveaways.**

Adhesives

See also ATTACHING TO SURFACES

1. Items with adhesive surfaces (e.g. stickers) may not be given away for any purpose.
2. Exhibitors using flooring in the contracted space must adhere the material using only adhesives easily and readily removable, leaving behind no damage. Exhibitor is responsible for the complete removal of all adhesive material from its contracted space or face damage assessments or forfeiture of future participation.

Admission Tickets

Any person entering State Fair Park must present an outside gate admission ticket or season pass to be scanned. If re-entry to the grounds is necessary, a hand stamp can be obtained from gate attendants. **Outside gate admission ticket stubs or season pass and valid hand stamps are required for re-entry.** Exhibitors will be issued outside gate admission tickets, per day, Exhibitor badges, and season parking permits, good for all 11 days, at no charge, per the schedule below:

Booth Size	Single Day Tickets	Exhibitor Badge	Parking Permits
1 – 299 sq. ft.	22	2	2
300 – 599 sq. ft.	33	3	3
600 – 899 sq. ft.	44	4	4
900 – 1199 sq. ft.	55	5	5
1200+ sq. ft.	66	6	6

1. If an Exhibitor has multiple locations, each location is treated independently regarding outside gate admission tickets and parking permits. Example: If an Exhibitor has two (2), separately contracted 20X10 booths, the Exhibitor will receive a total of 44 outside gate admission tickets, four (4) Exhibitor badges and four (4) parking permits.
2. Parking permits do NOT guarantee the availability of a parking space and can only be used in the \$10 paid parking lots.
3. Additional discounted outside gate admission tickets, season passes, and parking permits may be purchased in advance via the **PARKING & OUTSIDE GATE ADMISSION ORDER FORM** on our website. Advance orders need to be placed by August 1, so they can be included in the Exhibitor packets for move-in.
4. After August 1, outside gate admission tickets and parking permits must be purchased at the cashier's window during move-in. At the cashier's window, they will only be sold to the authorized agent noted on the Exhibitor contract.
5. Refunds will NOT be issued for discounted outside gate admission tickets, season passes and/or parking permits after purchase. All sales are final.
6. Outside gate admission tickets sold at the discounted rate are not available once the Fair opens.
7. Any misuse of Exhibitor outside gate admission tickets, season passes and/or parking permits will result in forfeiture of credentials and revocation privileges. Giving away or resale of any outside gate admission tickets, season passes and/or parking permits is strictly prohibited anywhere.
8. Discounted outside gate admission tickets, are intended for use by WORKING employees ONLY. Without special approval, the number of discounted outside gate admission tickets, season passes and parking permits allowed for purchase per Exhibitor is limited to a maximum of 50. If more than 50 are required, Exhibitors must request approval BEFORE submitting the order form and payment via email. Payment will be refused and returned if special approval has not been requested in advance.
9. Outside gate admission tickets, season passes and season parking passes will be available to the general public at the State Fair Box Office. Daily parking passes can be purchased at each lot upon arrival and outside gate admission tickets are also available at the gates.
10. A limited number of reserved parking spaces are available for Exhibitors in the designated Gate 3 lot. See *PARKING – Exhibitor Reserved Parking*.

Alcohol

1. Outside alcohol is prohibited on the grounds at any time, including move-in.
2. Consumption of alcoholic beverages in any Exhibitor space, at any time, is strictly prohibited. This regulation will be enforced during move-in, the period of occupancy and move-out. Exhibit space should always be treated as any other place of business; professional conduct is required.

Animals

While pets are not permitted in the event area during the Fair, it is understood that Exhibitors do travel with their pets. The following rules apply.

1. Trained service dogs, dogs booked for scheduled acts, OSF competitions and/or police dogs ARE allowed inside the OSF event fence line and buildings.
2. Animals must always be on a leash.
3. Animals shall not be tied up and left unattended.
4. When walking your animal on a leash, pick up after your animal and place it in a trash bin.

Booth Design & Operating Standards

All Booths

1. Exhibitor space should be maintained in a clean and attractive manner. Operational supplies and other materials (i.e.: storage boxes, cleaning products, trash, employee meals) not for public offering, should be attractively screened from view.
2. No element of Exhibitor display may extend past the boundaries of the contracted space without the express consent of OSF, including: rolling/movable kiosks, props, décor or signage of any kind. OSF reserves the right to move or remove any items spilling over into public aisles, pathways or service alleys, at Exhibitor's expense.
3. No vehicles are allowed in Exhibitor space without written approval from OSF.
4. Helium-filled mylar balloons are prohibited in any space. Helium-filled vinyl balloons may only be used, with written permission from OSF, in displays. Balloons are never to be given away or sold.
5. When attracting large crowds, it is the responsibility of each Exhibitor to queue their own lines.
6. Speakers used in demonstration booths, or music in general, should be set so the volume is not disruptive to neighbors. Auditors will investigate general disruption or complaints.
7. In order to provide proper customer service, food Exhibitors must provide ALL condiments and associated supplies appropriate for menu items, i.e.: napkins, ketchup, mustard, etc.
8. Exhibitors should have ingredient information available for customer requests, i.e.: food allergies.
9. Violations of booth operations (opening, closing, staffing, booth design, etc.) could result in fines starting at \$250 and/or risk eligibility for invitation to return.
10. Exhibitors who received notices on the display evaluation regarding missing display requirements (i.e.: flooring, semi-permanent backgrounds, etc.) will be checked during move-in to ensure these requirements are met to be permitted to open.

Inside Booths

2. Semi-permanent backgrounds covering the entire width and height (8') of the space is required in all buildings. Pipe & drape alone will not suffice, unless it is done attractively.
3. Flooring of appropriate, clean material is required in all exhibit buildings.
4. Booth design may not exceed 8' in height. Exhibitor must submit a **request via email** to have product or signage exceeding the height restrictions.
5. Nothing may be attached to any OSF permanent or temporary structure including Exhibitor booth signs, banners or product.
6. It is the responsibility of each Exhibitor to ensure booth display elements and merchandise are protected and secured from the public walkway, as well as from overhead hazards. Solid plastic and vinyl materials may NOT be used, as they are not penetrable by water. Acceptable substitutes include: colored safety fencing, netting or any natural material.
7. If carpet or other flooring material is part of booth display, it should be "new" in appearance. Carpet adhesive, if used, must be completely removed without damage to surface during move-out.
8. When working with shared sidewalls, the top and front 4' section of the wall must remain transparent. See *DRAWING*. If a certain design is mutually agreeable to both parties, displays covering this "window" will be acceptable; however, if Exhibitors cannot agree on treatment of the sidewalls, the standard shown will be the rule. Exhibitors should arrive prepared to adhere to this standard. Please remember, renewing Exhibitors could have new neighbors. This may be addressed in advance by contacting your neighbor(s) regarding shared sidewall(s). **Exhibitors may contact the space sales office to obtain their neighbors' contact information.**

Outside Booths

1. **Fencing/screening:** Every outdoor vendor **MUST** fence or screen the back and sides of their space, and any “back-of-house” service, stock and prep areas, as well as provide fencing/partitions to each side to keep the public from cutting through utility areas adjacent to their space(s), as necessary. Specific size, color and design of fencing/screens are the choice of each Exhibitor and should complement the style or personality of the space, materials stored within this area may not exceed the height of the fence or barrier.
2. Structures should be constructed to withstand inclement weather conditions.
3. All elements of display or operation must fit within the space marked, including: hitches, stakes, service or storage facilities. If awnings extend into fire lanes or other throughways, they must be easily retracted for emergency vehicles access.
4. Wastewater from concession booths/trailers may **ONLY** be drained into specifically designated receptacles. Receptacles will be either in-ground sewer drains or portable pots. See *OKLAHOMA CITY PUBLIC WORKS DEPARTMENT*.
5. Any utility easements may not be blocked or used for any other purpose.
6. Tent stake lines must be flagged for safety with brightly colored pennants, preferably orange. Stakes should not extend beyond the marked, contract space. Additionally, for both safety and aesthetics, stakes should be used as close to the tent legs as possible. If additional security is required, Exhibitor should consider the additional use of water barrels or other means of holding any tented structure in place. Stake holes should be adequately filled and repaired, or fines and cost to repair will be assessed.
7. Absolutely **NO** staking is allowed on the colored concrete on Gordon Cooper Blvd., or on any concrete sidewalks. Exhibitors located in/near these areas must use water barrels to secure tents.
8. Grounds will be marked for water, gas and other utility lines prior to move-in. Staking is permitted on asphalt and grassy areas **ONLY**. **Staking must be a minimum of 2' from any marked utilities. If Exhibitors are unsure, please contact the Space Sales office before staking.** Repair of any damage made from staking is the Exhibitor's responsibility. A minimum \$50 fine per location will be assessed for all spaces left in disrepair. Additional fees may be assessed based on the severity of the damage.
9. Excessive staining from grease or other substance is a serious offense. It is the Exhibitor's responsibility to leave space in clean condition. Fees will be assessed for spaces left in disrepair.

4. Exhibitors will properly secure and display all required local, state or federal permits (e.g. temporary food service license) in clear sight. Failure to do so may result in the removal of any product governed by said license or permit and/or the temporary or permanent closure or removal of the booth from the event without consideration for refund.

Compliance with Laws

Exhibitor and its affiliates, officers, directors, managers, employees, shareholders, members, agents, and assigns shall comply with all laws, ordinances, rules and regulations of the United States, the State of Oklahoma, the County of Oklahoma, the City of Oklahoma City, and any government agency and shall not do or permit to be done anything in violation of such laws, ordinances, rules or regulations.

Concessionaires & Pay-to-Play Attractions

Remember that good customer service requires presenting accurate knowledge about ingredients and appropriate condiments, including napkins, upon request at each location.

Point of Sale / Audit Devices

1. OSF requires the use of pre-approved points of sale in all food and beverage concessions, and other percentage sales exhibits, such as pay-to-play attractions unless a written variance is granted by OSF.
2. The use of “Clover” point of sale system is required. Please reference special materials provided separately regarding this for additional, more specific information. This program is **mandatory**.
3. Clover devices are cloud-based, use Wi-Fi or AT&T LTE service and accept credit cards. If you choose to take credit cards, please note that the system could run in offline mode when the cellular and/or Wi-Fi traffic on the grounds is at peak capacity. This means that a credit card transaction could come back as declined or invalid when the device returns to on-line mode. All such transactions are the full responsibility of the Exhibitor and must still be reported as sales. The device will automatically sync when a signal is available and it returns to on-line mode.
4. Clover or OSF personnel will pre-program all devices for approved menus. Exhibitors may not alter programming in any way. All changes must continue to be approved by OSF.
5. Exhibitors that currently own a Clover device may use it **only** if digital access to the reports for the Oklahoma State Fair event are programmed and automated per OSF requirements. Any changes to items or pricing must still be preapproved by OSF.
6. Sales display screens must always be in full view of customers.
7. It is mandatory for food Exhibitors and pay-to-play attractions to offer customers a receipt.
8. **Computation of sales:** Sales as shown by all devices in each location, less documented adjustments, will be considered the actual gross sales of the Exhibitor, unless OSF management deems the sales higher in the case of observed unrecorded sales, broken machines, power outages, etc.
9. **Point of Sale programming:**
 - a. Exhibitor’s menu is pre-programmed into each point of sale device unless a written variance is granted. Complete and accurate menus must be returned with a signed contract. Only in rare instances will Exhibitors be approved to add items or change pricing after August 15. All changes must be approved by OSF.
 - b. All point of sale devices must be programmed to include tax in the price of the item, just as the menu boards are required to show “tax included” pricing. Additionally, no additional fees (such as charges for using credit or debit cards) may be charged.

Sales & Sales Reporting

1. Exhibitor is required to maintain a daily record of all gross receipts derived from operation.
 - a. Daily closing sales reports are required, and must be turned in daily before 1 p.m.
 - b. A \$50 late fee will be applied to Exhibitor accounts for each delinquent day of reporting.
 - c. Reporting procedures will be outlined in a separate document.
 - d. Exhibitors who fail to report daily sales will forfeit participation in any future event.
2. Throughout the event, members of the audit team will conduct spot audits, associated with the use of proper point of sale and cash control systems.

For orders placed after August 1, late fees apply, and OSF does not guarantee orders will be accommodated. **Note:** *restocking spaces are provided at no charge and do NOT include free electric service.*
2. The official OSF electrical contractor will ensure each Exhibitor receives the ordered service and the actual consumption of each Exhibitor will be closely monitored.

9. It is the Exhibitor's responsibility to be aware of actual power needs and order adequate power to supply those needs. Exhibitors are liable for any damages caused by excessive power consumption, subject to fines up to \$500, and any additional costs for associated repair or replacement of equipment.

Inside locations, unless otherwise noted, may begin move-in on Saturday, September 12 at 8 a.m. The buildings will lock at 8 p.m. daily; however, work may continue until 10 p.m. Access after 8 p.m. can be granted by a building host at the one (1) specified door. **ALL OTHER DOORS SHALL REMAIN CLOSED and LOCKED.**
3. Without prior permission, no exhibit, trailer or concession may be placed on its assigned space or anywhere on State Fair Park property until the above specified date and after checking-in with the space sales office. Unauthorized equipment/trailers found on grounds prior to official move-in dates may be towed or impounded.

Early Move-In

1. Should any Exhibitor require early move-in or equipment drop-off prior to the specified date, a request for approval may be submitted for review with the **VARIANCE FORM** available on our website. Specific instructions will be given at that time.

Checkpoints During Move-In

1. Gates are secured for move-in. Without a special permit or identification, vehicles must STOP for gate attendants, and only those vehicles with equipment to be unloaded for a valid space will be granted entry. All other vehicles will be required to park outside the gates and walk to exhibit space.
2. For added convenience, each contracted exhibit/concession location will be issued two (2) move-in permits for easier gate access. Permit holders need only slow down enough for the gate attendant to quickly identify authorized Exhibitors. Anyone seeking employment or access to the grounds without a move-in permit or without equipment to be unloaded **MUST** park and walk in.

Move-In Procedures

1. **Upon arrival and before beginning to move-in, EVERY Exhibitor MUST FIRST check in with the Help Desk in the west end of the Administration Building (also known as the Safety Center).** Short-term parking for move-in only (limited to 15 minutes) is available along the curb beyond the fire lanes in front of the Safety Center, and in parking lots located just south and east of the Administration Building inside Gate 3. Another option is to park outside Gate 2 and walk down the sidewalk to the Safety Center entrance. After checking in, Exhibitors can enter any of the above-mentioned gates for access to their space(s).
2. Exhibitors may NOT move-in before claiming their move-in/welcome packet, which includes all credentials and special passes for gate entry. Auditors and building hosts will make the rounds to

- ensure all Exhibitors have picked up their welcome packets. Any Exhibitor found occupying booth space without their move-in/welcome packet may forfeit the opportunity for participation.
3. Only those Exhibitors who have completed all requirements will be allowed to claim their move-in/welcome packet and proceed with move-in operations. Requirements include but are not limited to: full booth payment, payments for any add-on services, menu forms, and proof of General Liability and Workers' Compensation insurance coverages.
 4. Vendors moving in without these items may incur a monetary penalty including a \$100 fee per day for lack of current, proper insurance on file and/or be asked to vacate the property.
 5. Late arrivals will not be permitted to move-in unless approved by OSF.

Move-In Reminders

1. **NO DRIVE-IN ACCESS TO BUILDINGS AFTER MONDAY, SEPTEMBER 9.** Absolutely no vehicle access is allowed in any building Tuesday and Wednesday, so please plan arrival and setup accordingly. 2. **Safety Measures:** Fire lanes and pedestrian right-of-way must always remain unobstructed and accessible. Under no circumstances should streets be completely blocked. Aisles inside the buildings need to be as clear as possible. Please be considerate of others by not blocking roll-up doors and aisles for longer than necessary. Any equipment or vehicles blocking fire lanes or aisles are subject to towing at owner's expense.
3. Exhibitors assigned to spaces in front of roll-up doors, may **NOT** begin set-up until Tuesday, September 10 when the overhead doors will be closed.
4. In certain areas of some buildings, overhead doors located behind sold exhibit space will be closed and locked all day starting Tuesday, September 15 to allow the Exhibitors assigned to that space to set-up.
5. The Bennett Event Center has its own procedures, see the **FORMS** section on our website.
6. **Parking in Loading Zones:** Under no circumstances may trailers be unhitched from their tow vehicles or wheel locks **EVER** be used. Be courteous to fellow Exhibitors. Be quick and move vehicles/trailers as soon as they are emptied. Vehicles may not be left unattended, and set-up may not begin until vehicles/trailers are completely unloaded and moved out of loading areas. Exhibitors caught in these acts are subject to fines and any expense associated with towing or removal. Building hosts may monitor unloading times and will impose limits, if necessary.
7. Other undesignated loading areas, such as those located at curbs and in closest proximity to buildings, are reserved for vehicles/trailers actively being unloaded. General parking for all other vehicles should occur in parking lots outside the designated event perimeter.
8. Take care if it is necessary to drive over curbs, medians, grass or sidewalks. Exhibitors causing damage while doing so will be fined.
9. Each space is clearly marked with tape, paint, chalk or stakes. It is the responsibility of each Exhibitor to ensure the space is marked accurately, based on contracted booth dimensions, before setting up. When in doubt, ask. If display is set-up in the wrong space, it will have to be moved.
10. Exhibitors who received notices on the display evaluation, regarding missing display requirements, (i.e. flooring, semi-permanent background, etc.) will be checked during move-in to ensure these requirements are met to be permitted to open.
11. Floor tape, used inside buildings to outline/mark booth spaces, should be removed once booths are set-up and operational. Please help ensure an attractive building presentation.

Oklahoma City Public Works Department

Storm Water Quality Management

1. The storm water pollution prevention class will be held at State Fair Park in the Capital City Auditorium in conjunction with the food handlers' training (see Oklahoma City County Health Department section for the training schedule). **Attendance at one (1) of the classes is mandatory.** For questions, contact the Storm Water Quality Office at 405-297-1774.
2. With the onset of new and changing federal legislation, spanning from the 1970s through the 1990s, the City of Oklahoma City developed a program to comply with the federal mandate to prevent urban pollution from entering "Waters of the US." The program's purpose is to "protect, maintain, and enhance the environment of the City of Oklahoma City by controlling discharges of pollutants to the City's storm water system and to maintain and improve the quality of community lakes, rivers, streams and ponds."
3. This is official notification of the municipal code regarding the discharge of sewage, sewage sludge or wash water (grey water, shower water, clothes washing water, sink water). Oklahoma City Municipal Code Chapter 57-178 "Illicit Discharge and Illegal Dumping" states: "No person shall conduct, allow or permit the direct or indirect discharge of any material other than storm water into the MS4 (Municipal Separate Storm Sewer System), the Communities' Waters or Waters of the State. The following direct or indirect discharges are examples of prohibited discharges: sewage dumping or dumping of sewage sludge; and/or discharge of any polluted household waste water, such as but not limited to laundry wash water and dish water, except to sanitary sewer or septic system.

4. **The only discharge allowed into the City of Oklahoma City's storm water inlets, pipes and creeks is RAIN water.** If filtration devices are ever found to be moved or missing, or suspicious activity/illegal dumping is observed, please contact OSF. Let's all do our best to keep the event and the City of Oklahoma City clean and in storm water compliance with the EPA.

Key Issues

1. Drain hoses coming unattached from **temporary septic tanks** and spilling onto the ground.
2. Discharge hoses running into storm **drains** or anywhere other than the **temporary septic tanks**.
3. Sinks draining directly into storm drains or anywhere other than the **temporary septic tanks**.
4. Wash water discharged to the ground, instead of pouring into the **temporary septic tanks**.
5. Overflows of temporary septic tanks to the ground
6. Blowable or floatable trash and debris around areas, related to your events.

Enforcement

1. **City of Oklahoma City Ordinances:** Chapter 16: Drainage & Detention; Chapter 48: Grading Erosion & Sediment Control; and Chapter 57:Permits & Enforcement
2. All storm water inspectors are commissioned Environmental Enforcement Officers and can shut down or stopping any activity or facility that is violating city ordinances and will be on-site monitoring activities.
 - a. First offense: warning, possible Notice of Violation (NOV), copy of notice given to OSF
 - b. Second offense: NOV, closing of facility, fine(s)
 - c. On some occasions, in cooperation with the Department of Environmental Quality and Oklahoma City Police Department, arrests have been made.
3. OCCHD and the Environmental Protection Agency (EPA) regulate wastewater discharge. Any runoff from dish washing, soda, beer, ice melt and any other source must go into sanitary sewers or leak-proof containers provided by OSF. Exhibitors may run hoses to these locations if it is not necessary to cross streets or pedestrian walkways. Otherwise, Exhibitors will be required to transport it to one (1) of the many temporary septic tanks placed around the event. Runoff into the storm drains is NOT acceptable.
4. **Do not dump grease into the permanent sewers or temporary septic tanks! Wastewater disposal violations may result in termination of lease and/or additional costs or fines.**
5. **Exhibitors may be subject to additional fines imposed by OSF for damages, repairs or clean-up expenses.**

Oklahoma Tax Commission

Sales Tax

2. The Oklahoma Tax Commission (OTC) requires each Exhibitor to fill out the OTC Special Event Registration, available on the OSF website, and return it to the Oklahoma State Fair by August 1. Move-in will not be permitted until the registration form is received. OTC will be provided a list of all Exhibitors and will issue permits at the start of the event. If you have any questions, contact Angelia Riddle at 405-522-6463 or angelia.riddle@tax.ok.gov
3. The sales tax rate Exhibitors may charge is 8.625%.
4. Concessionaires and pay-to-play vendors that pay a percent rent to OSF MUST include sales tax in the price of all items on their menus.
5. Tax WILL be collected on the final Saturday and Sunday of the event.
6. **NO CASH will be accepted - a completed Sales Tax Report must be submitted along with a check, cashier's check, money order or online payment confirmation number.**
